Improving Access to Quality Medical Care

The practice and delivery of healthcare is changing with an emphasis on improving quality, safety, efficiency, & access to care. Telemedicine can help you achieve these goals! The Arizona Telemedicine Program, Southwest Telehealth Resource Center, and Southwest Autism Research & Resource Center invite you to a **free** webinar on the implementation and practice of telemedicine.

"DO THIS not That"

Thursday, May 27, 2021 ~ 9:00 - 11:30 AM AZ time (PDT)

Service Description: Social and communicative deficits are at the core of Autism Spectrum Disorder and can result in skill deficits and excesses of maladaptive behaviors. Explore a set of evidence-based interventions and teaching strategies to replace deficits with a set of meaningful and functional skills to increase success in a home and community setting.

Learning Outcomes:

1. Identify and label challenging behavior.
2. Identify one method to collect data.
3. Identify two potential strategies to increase replacement behavior.

Outcomes: Lead contact will be provided with questionnaire and evaluation scores.

Audience: Providers, parents, and educators.

Presenter: Megan Mann, M.Ed., BCBA

Megan Mann is a Senior Clinical Consultant at the Southwest Autism Research and Resource Center (SARRC). Megan is a Board Certified and Licensed Behavior Analyst. Her clinical experience focuses on inclusion, dissemination of applied behavior analysis, and caregiver training for parents of children with autism spectrum disorders (ASD).
